Enthusiastic Information Technology student based in Mumbai, currently pursuing a Bachelor's degree at Thadomal Shahani Engineering College. I am eager to apply my academic knowledge and passion for learning in a challenging internship role.

EDUCATION

Thadomal Shahani Engineering College
Bachelor of Engineering in Information Technology

Bandra, Mumbai
2021-2025

EXPERIENCE

Talent Corner

February 2024 - April 2024

Web Developer Intern

ongoing

- Leading the development of an automation app that enhances communication among Business Development (BD), Team Leaders (TL), and franchise personnel, while optimizing workflow through real-time tracking of franchise work statuses and seamless integration of communication channels.

PROJECTS

CareerExpo | *Nodejs, Expressjs, React, MongoDB*

September 2023 – Present

- Live - [CareerExpo](#) Source Code- [Github](#)
- Developed a Career Assessment and Recommendation website. Utilized Node.js and Express.js to create a scalable backend architecture, seamlessly integrated with React for an intuitive user interface, ensuring a cohesive user experience.
- Facilitated the Implementation of JWT authentication, amplifying user security and personalization, and fortified credential security with bcrypt hashing, elevating the platform's compliance with industry standards.

Real-Estate | *Nodejs, Expressjs, React, MongoDB*

November 2023 – Present

- Source Code- [Github](#)
- Seamlessly integrated MongoDB, Express.js, React, and Node.js to create a feature-rich platform for efficient real estate management.
- Facilitated robust JWT authentication, bolstering the platform's security, and strengthened user credential security by implementing bcrypt to hash passwords, mitigating potential risks and ensuring compliance with industry standards.

Blogsite | *Nextjs, MongoDB, TailwindCSS*

January 2024 – Present

- Source Code- [Github](#)
- Developed a blog website using the Next.js framework, capitalizing on its efficient App Router for seamless page navigation.
- Implemented Next-Auth for secure multi-provider user authentication, enabling login via Google, GitHub, or email/password, and integrated role-based (admin, user) authentication to control access across the application.

SKILLS

Frontend: HTML, CSS, Javascript, React, TailwindCSS, ShadCN/UI, Material-UI, Material Tailwind, Nextjs

Backend: Nodejs, Expressjs, MongoDB, Mongoose

Developer Tools/Technologies: Git, Github, VS Code, Postman

Relevant Coursework: C++, OOPS, DSA, DBMS, Computer Networking, OS

Soft Skills: Communication, Leadership, Teamwork, Problem Solving

ADDITIONAL ACTIVITIES

Competitive Programming

Active participation in LeetCode, CodeChef, and CodingNinjas contests, resolving 100+ diverse problems and achieving a peak contest rank of 6397, demonstrating consistent engagement and competitive excellence.
